

OPERATING GUIDE

300 Series Monitor Equalizer/Power Amplifier

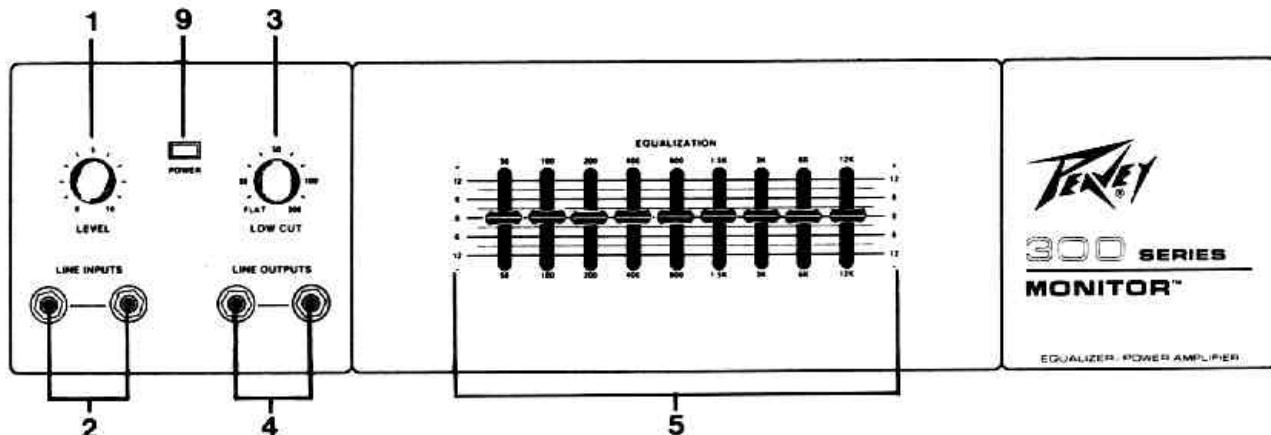

A Intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

A Intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product.

CAUTION: Risk of electrical shock — DO NOT OPEN

WARNING: To reduce the risk of electric shock, do not remove cover. No user-serviceable parts inside. Refer Servicing to qualified service personnel.

WARNING: TO PREVENT ELECTRICAL SHOCK OR FIRE HAZARD, DO NOT EXPOSE THIS APPLIANCE TO RAIN OR MOISTURE. BEFORE USING THIS APPLIANCE, READ THE OPERATING GUIDE FOR FURTHER WARNINGS.

LEVEL CONTROL (1)

Controls the overall gain at the input. This control provides extremely wide dynamic range, accepting signals from 1/2 volt up to speaker levels (20-30 volts).

LINE INPUTS (2)

The two parallel $\frac{1}{4}$ " input jacks allow access to the level control and routes signal directly to the 9-band equalizer.

LOW CUT FILTER (3)

Variable low frequency roll off control (high pass filter). Roll off rate is 12 dB/octave and is continuously variable from 20 Hz to 200 kHz.

OPERATION NOTE:

This control should be operated near the low frequency "cut-off" of the speaker enclosure. Adjusting the "low cut" to a setting below the "low frequency limit" of the enclosure could result in loss of headroom and/or over-stressing the transducer.

LINE OUTPUTS (4)

The two parallel $\frac{1}{4}$ " jacks allow line level (600 ohm) signal to be taken after the 9-band equalizer. Line level output signal may be patched out to other power amplifiers or audio accessory devices, designed for line levels.

9-BAND GRAPHIC EQ (5)

Provides ± 15 dB equalization at each center frequency.

OPERATION NOTE:

Operation Note: This equalizer is designed to provide room equalization, feedback control and system tone control. No amount of equalization will correct an acoustically bad room/mic/speaker arrangement or completely correct the response curve of a poor loudspeaker.

Always begin with all sliders in the "0" position and avoid excessively cutting large segments of the audio passband, which would limit the system's dynamic range.

LEVEL CONTROL (1)

Niveau-Regler am Eingang. Dieser Regler bietet eine außerordentlich große dynamische Spannweite und akzeptiert Signale von $\frac{1}{2}$ Volt bis zu Lautsprecherniveau (20 bis 30 Volt).

LINE INPUTS (2)

Durch die zwei parallelen Eingänge hat man Zugang zum Level Control und das Signal wird direkt zum 9-band-Equalizer weitergeleitet.

LOW CUT FILTER (3)

Variabler Regler zum Absenken der Bass-Frequenzen. Die Absenkspanne beträgt 12 dB/Oktave und ist regelbar von 20 bis 200 Hz.

OPERATION NOTE:

Dieser Regler wird in Verbindung mit der Bass-Frequenz "cut-off" der Lautsprecherbox verwendet. Wenn dieser Regler gut eingestellt wird, hat man keinen Verlust von Headroom und/oder der Lautsprecher kann nicht beschädigt werden.

LINE OUTPUTS (4)

Von diesen zwei parallelen Ausgängen kann das Line-Niveau-Signal (600 Ohm) hinter dem 9-Band-Equalizer abgenommen werden. Das Signal kann benutzt werden, um andere Endstufen oder Audiogeräte zu betreiben.

9-BAND GRAPHIC EQ (5) (9-Band Grafik-Equalizer)

Ermöglicht Klangregelung über ± 15 dB an jeder der neun Mittenfrequenzen.

OPERATION NOTE:

Bedienungshinweis: Dieser Equalizer ist für die Vermeidung von Rückkopplungen und für die Klangregelung vorgesehen. Die Korrektur von einer schlechten Raumakustik, schlechtem Mikrofon und Lautsprecher ist nur sehr eingeschränkt möglich und bedarf anderer Maßnahmen.

LEVEL CONTROL (1)

(réglage de niveau)
Commande le gain global à l'entrée. Ce réglage procure une plage de dynamique extrêmement étendue, acceptant des niveaux depuis $\frac{1}{2}$ volt jusqu'au niveau haut-parleur (20 à 30 volts).

LINE INPUTS (2) (Entrées Ligne)

Les deux jacks 6,35 en parallèle donnent accès au réglage de niveau et amènent le signal directement à l'égaliseur 9 bandes.

LOW CUT FILTER (3)

(Filtre coupe-bas)
Filtre d'atténuation des fréquences extrêmes graves. Pente de 12 dB/octave, fréquence de coupure réglable entre 20 et 200 Hz.

OPERATION NOTE:

Ce réglage devra être positionné aux alentours de la fréquence de coupure du baffle grave. Un réglage inférieur à cette valeur amènerait une perte de puissance disponible et éventuellement mettrait les haut-parleurs en danger.

LINE OUTPUTS (4) (Sorties Ligne)

Ces deux jacks 6,35 en parallèle permettent le prélevement du signal au niveau ligne (600 ohms) après l'égaliseur 9 bandes. Ce signal de sortie pourra alimenter d'autres amplis de puissance ou appareils audio conçus pour fonctionner au niveau ligne.

9-BAND GRAPHIC EQ (5) (Egaliseur graphique)

Egaliseur à 9 bandes avec correction de ± 15 dB sur chaque fréquence centrale.

OPERATION NOTE: (Note d'utilisation)

Un égaliseur est conçu pour corriger l'acoustique d'une pièce, abaisser le seuil de réaction "Larsen" ou corriger la tonalité. En revanche, il ne pourra pas remédier totalement à un ensemble acoustiquement faible (salle / micro / baffles).

Avant d'effectuer une correction, rétablissez les curseurs en position centrale. Puis corrigez progressivement, en évitant si possible de couper fortement des plages entières du spectre audio. Ceci limiterait la dynamique du système.

LEVEL CONTROL (1)

Controla la ganancia general de la entrada. Este control provee un extenso rango dinamico aceptando señales desde $\frac{1}{2}$ voltio hasta niveles de parlante (20-30 voltios).

LINE INPUTS (2)

Las dos entradas de $\frac{1}{4}$ paralelas permite acceso al control de niveles y envia la señal directa al equalizador de 9 bandas.

LOW CUT FILTER (3)

Control que varia el "roll-off" en la baja frecuencia (Filtro de altas). El radio de corte son 12 dB/octava y varia continuamente de 20Hz a 200Hz.

OPERATION NOTE:

Este control debe operarse cerca del punto de "corte total" de la baja frecuencia de la bocina. Si se ajusta el corte del bajo a una posición por debajo del límite de baja frecuencia de la bocina esto podrá resultar en perdida de margen de seguridad y/o daño a la bocina.

LINE OUTPUTS (4)

Las dos salidas paralelas de $\frac{1}{4}$ permiten tomar la señal de línea (600 ohms) después del equalizador de 9 bandas. La salida de la señal de línea puede ser enviada a otros amplificadores de potencia u otros aparatos audio concus para funcionar en nivel de línea.

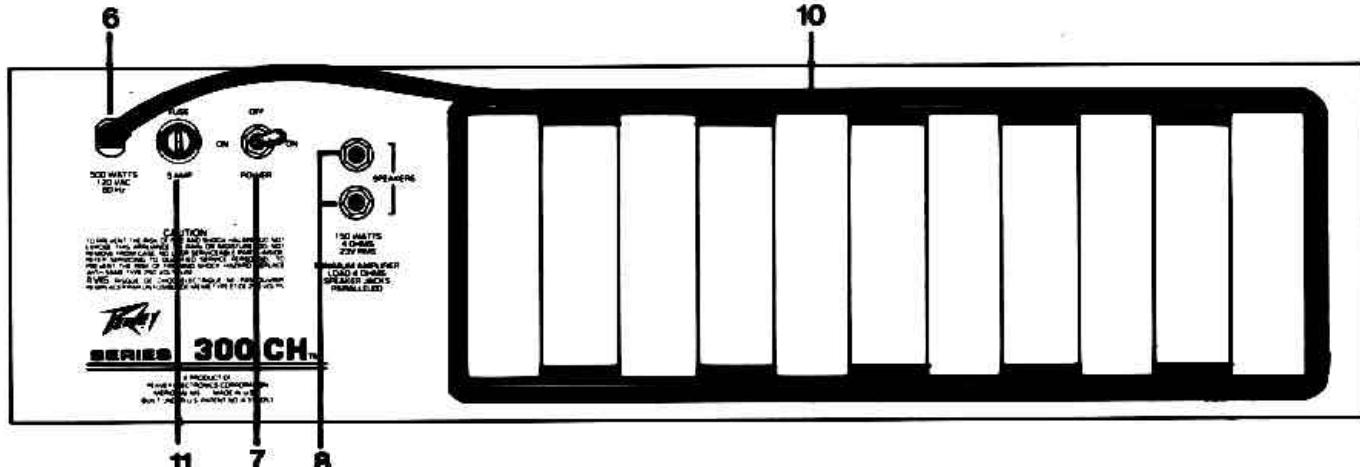

9-BAND GRAPHIC EQ (5) (Equalizador Gráfico de 9 Bandas)

Provee ± 15 dB de ecualización a cada frecuencia central.

OPERATION NOTE: (Nota de Operación)

Nota de Operación: Este equalizador está diseñado para proveer ecualización de ambiente, control de retroalimentación y sistemas de control de tono. Ninguna cantidad de ecualización, corregirá un acústicamente mal cuarto/micrófono/bocina arreglando o corrigiendo completamente la curva de respuesta de un deficiente altavoz.

Siempre comenzar con todos los controles deslizables en la posición "0" y elimine cortando excesivamente largos segmentos de la banda de audio, el cual limita la dinámica de rango del sistema.

LINE CORD (6)

For your safety, we have incorporated a 3-wire line (mains) cable on the back of the chassis with proper grounding facilities. It is not advisable to remove the ground pin under any circumstances. If it is necessary to use the amplifier without proper grounding facilities, suitable grounding adapters should be used. Less noise and greatly reduced shock hazard exists when the unit is operated with the proper grounded receptacles. NOTE: The above statement in reference to removing the ground pin is applicable only to 120 volt model products.

POWER SWITCH (7)

Depress the switch to the "On" position. The red pilot light (LED) will illuminate indicating power is being supplied to the unit.

SPEAKER OUTPUTS (8)

Provided for connection of external speaker(s). Minimum total impedance is 4 ohms.

POWER LED (9)

Illuminates when AC power is being supplied to the amp.

LINE (MAINS)

CORD RETAINERS (10)

Allow storage of mains cable for travel.

FUSE (11)

The fuse is located within the cap of the fuseholder. If the fuse should fail, IT MUST BE REPLACED WITH THE SAME TYPE AND VALUE IN ORDER TO AVOID DAMAGE TO THE EQUIPMENT AND TO PREVENT VOIDING THE WARRANTY. If the amp repeatedly blows fuses, it should be taken to a qualified service center for repair.

WARNING: THE FUSE SHOULD ONLY BE REPLACED WHEN THE POWER CORD HAS BEEN DISCONNECTED FROM ITS POWER SOURCE.

LINE CORD (6)

Die Netzanschlussschnur und die Sicherheitsvorrichtungen entsprechen den neuesten gültigen VDE-Richtlinien.

POWER SWITCH (7)

(Netzschalter)

Bringen Sie den Schalter auf die ON-Position. Die rote Kontrolllampe (LED) leuchtet und zeigt an, daß das Gerät eingeschaltet ist.

SPEAKER OUTPUTS (8)

(Speaker Outputs)

Vorgesehen für den Anschluß externer Lautsprecher. Die Gesamtimpedanz von 4 Ohm darf nicht unterschritten werden.

POWER LED (9)

Zeigt die eingeschaltete Netzspannung an.

LINE (MAINS) CORD

RETAINERS (10)

Befestigungsmöglichkeit für das Netzkabel.

FUSE (11)

(Fuse)

Die Sicherung ist in der Kappe des Sicherungshalter plaziert. Fall die Sicherung durchgebrannt ist, darf sie ausschließlich durch eine Sicherung desselben Typs und derselben Belastbarkeit ersetzt werden, da sonst das Gerät beschädigt werden kann und der Garantie-Anspruch erlischt.

Achtung! Die Sicherung darf ausschließlich bei gezogenem Netztecker gewechselt werden!

LINE CORD (6)

(Cordon Secteur)

Cordon d'alimentation secteur avec câble à trois conducteurs dont terre. Ne pas tenter d'enlever la broche de mise à la terre qui assure une sécurité électrique et participe à minimiser le bruit de fond.

POWER SWITCH (7)

(Interrupteur Secteur)

Interrupteur général. En position Marche, une diode LED rouge s'allume.

SPEAKER OUTPUTS (8)

(Sorties haut-parleurs)

Prises de sortie vers haut-parleur(s) extérieur(s). L'impédance résultante devra être au minimum de 4 ohms sur chaque prise.

POWER LED (9)

(Diode-Témoin de Mise Sous Tension)

S'allume lorsque l'ampli est alimenté par le secteur.

LINE (MAINS) CORD

RETAINERS (10)

Support pour enrouler le cordon secteur pendant la maintenance et le stockage.

FUSE (11)

(Fusible)

Le fusible se trouve à l'intérieur de son support. En cas de coupure du fusible, il doit être remplacé par le MEME TYPE et la MEME VALEUR pour éviter tout DOMMAGE à L'APPAREIL et conserver le DROIT à LA GARANTIE. Si le fusible claque de manière répétée, soumettre l'appareil à un technicien qualifié pour vérification.

ATTENTION: Le FUSIBLE ne doit être remplacé qu'APRES AVOIR DEBRANCHE LE CORDON SECTEUR DE LA PRISE.

LINE CORD (6)

(Cable de Linea)

Para su seguridad hemos incorporado un cable trifásico en la parte posterior del chasis con instalaciones apropiadas para su conexión. No es recomendable quitar la clavija de conexión en ningún momento. Si se necesita usar el amplificador sin instalaciones de conexión adecuadas se deberá usar un adaptador. Cuando se usa el aparato con buenos receptáculos conectados se tendrá menos ruido y menos peligro de descarga.

POWER SWITCH (7)

(Interruptor de Poder)

Presione el interruptor a la posición de encendido (ON). La luz roja del piloto (indicador) se encenderá indicando que la unidad está recibiendo el poder.

SPEAKER OUTPUTS (8)

(Salida de Bocinas)

Provista para la conexión de bocinas externas. El mínimo total de impedancia es de 4 ohms.

POWER LED (9)

(Power LED)

Encendido cuando se prende el aparato.

LINE (MAINS)

CORD RETAINERS (10)

Permite guardar cables para fines de transporte.

FUSE (11)

(Fusible)

El fusible se encuentra localizado dentro de la cápsula del portafusible si el fusible se quema o falla. DEBERÁ SER REPUESTO CON UNO DEL MISMO TIPO Y VALORES, PARA PREVENIR DAÑO AL APARATO Y CANCELAR LA GARANTIA. Si el aparato quema los fusibles repetidamente, vea si está conectado a un tomacorriente con el voltaje adecuado, si esto es correcto, entonces desconecte y lleve a revisión por un técnico autorizado.

ATENCIÓN: El fusible deberá ser reemplazado, solo cuando el cable de alimentación sea desconectado del tomacorriente.

SPECIFICATIONS

Rated Power & Load:

90W RMS into 8 Ohms; 150W RMS into 4 Ohms;
2 Ohms not recommended

Power at Clipping, 1% THD, 1 kHz, 120 VAC Line

Typically: 100W RMS into 8 Ohms; 165W RMS
into 4 Ohms

Frequency Response:

+0, -1 dB 10 Hz to 40 kHz; at 150 Watts into 4
Ohms

Slew Rate:

40V/microsecond into 4 Ohms

Damping Factor:

Greater than 200 at 1 kHz, 4 Ohms

Total Harmonic Distortion:

Less than 0.2% 100 mW to 150W RMS, 10 Hz to
20 kHz, 4 Ohms, typically below 0.1%

DDT™ Dynamic Range:

Greater than 20 dB

DDT™ Maximum THD:

Below 0.5% for 6 dB overload, below 0.8% for 14
dB overload

Hum & Noise:

100 dB below 150W (20 Hz - 20 kHz)

Power Requirements:

120 VAC, 50/60 Hz, 500 Watts

DANGER
EXPOSURE TO EXTREMELY HIGH NOISE LEVELS MAY CAUSE A PERMANENT HEARING LOSS. INDIVIDUALS VARY CONSIDERABLY IN SUSCEPTIBILITY TO NOISE INDUCED HEARING LOSS, BUT NEARLY EVERYONE WILL LOSE SOME HEARING IF EXPOSED TO SUFFICIENTLY INTENSE NOISE FOR A SUFFICIENT TIME.
THE U.S. GOVERNMENT'S OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION (OSHA) HAS SPECIFIED THE FOLLOWING PERMISSIBLE NOISE LEVEL EXPOSURES.

DURATION PER DAY IN HOURS

8
6

1979

ACCORDING TO OSHA, ANY EXPOSURE IN EXCESS OF THE ABOVE PERMISSIBLE LIMITS COULD RESULT IN SOME HEARING LOSS.
EAR PLUGS OR PROTECTORS IN THE EAR CANALS OR OVER THE EARS MUST BE USED WHEN OPERATING THIS AMPLIFICATION SYSTEM IN ORDER TO PREVENT A PERMANENT HEARING LOSS. IF
EXPOSURE IS IN EXCESS OF THE LIMITS AS SET FORTH ABOVE, EXPOSURE AGAINST POTENTIALLY DANGEROUS EXPOSURE TO HIGH NOISE LEVELS. IT IS RECOMMENDED THAT ALL
PERSONS EXPOSED TO EQUIPMENT CAPABLE OF PRODUCING HIGH SOUND PRESSURE LEVELS SUCH AS THIS AMPLIFICATION SYSTEM BE PROTECTED BY HEARING PROTECTORS WHILE THIS UNIT IS
IN OPERATION.

THIS AMPLIFIER HAS BEEN DESIGNED AND CONSTRUCTED TO PROVIDE ADEQUATE POWER RESERVE FOR PLAYING MODERN MUSIC WHICH MAY REQUIRE OCCASIONAL PEAK POWER. TO HANDLE
OCCASIONAL PEAK POWER ADEQUATE POWER HEADROOM HAS BEEN DESIGNED INTO THIS SYSTEM. EXTENDED OPERATION AT ABSOLUTE MAXIMUM POWER LEVELS IS NOT RECOMMENDED SINCE
THIS COULD DAMAGE THE ASSOCIATED LOUDSPEAKER SYSTEM. PLEASE BE AWARE THAT MAXIMUM POWER CAN BE OBTAINED WITH VERY LOW SETTINGS OF THE GAIN CONTROLS IF THE INPUT
SIGNAL IS VERY STRONG.

1. Read all safety and operating instructions before using this product.
2. All safety and operating instructions should be retained for future reference.
3. Obey all cautions in the operating instructions and on the back of the unit.
4. All operating instructions should be followed.
5. This product should not be used near water, i.e. a bathtub, sink, swimming pool, wet basement, etc.
6. This product should be located so that its position does not interfere with its proper ventilation. It should not be placed flat against a wall or placed in a built-in enclosure that will impede the flow of cooling air.
7. This product should not be placed near a source of heat such as a stove, radiator or another heat producing amplifier.
8. Connect only the power supply of the type marked on the label adjacent to the power supply cord.
9. Never touch the ground pin on the power supply cord. For more information on grounding write for our free booklet "Shock Hazard and Grounding".
10. Power supply cords should always be handled carefully. Never walk or place equipment on power supply cords. Periodically check cords for cuts or signs of stress, especially at the plug and at the point where the cord exits the unit.
11. The power supply cord should be unplugged when the unit is to be unused for long periods of time.
12. If this product is to be mounted in an equipment rack, rear support should be provided.

CAUTION:

13. Metal parts can be cleaned with a damp cloth. The vinyl covering on some units can be cleaned with a damp rag or an ammonia based household cleaner if necessary.
14. Care should be taken so that objects do not fall and liquids are not spilled into the unit through the ventilation holes or any other openings.
15. This unit should be checked by a qualified service technician if:
 - A. The power supply cord or plug has been damaged.
 - B. Anything has fallen or been spilled into the unit.
 - C. The unit does not operate correctly.
 - D. The unit has been dropped or the enclosure damaged.
16. The user should not attempt to service this equipment. All service work should be done by a qualified service technician.

THIS LIMITED WARRANTY VALID ONLY WHEN PURCHASED AND REGISTERED IN THE UNITED STATES OR CANADA. ALL EXPORTED PRODUCTS ARE SUBJECT TO WARRANTY AND SERVICES TO BE SPECIFIED AND PROVIDED BY THE AUTHORIZED DISTRIBUTOR FOR EACH COUNTRY.

Ces clauses de garantie ne sont valables qu'aux Etats-Unis et au Canada. Dans tous les autres pays, les clauses de garantie et de maintenance sont fixées par le distributeur national et assurée par lui selon la législation en vigueur.

Diese Garantie ist nur in den USA und Kanada gültig. Alle Export-Produkte sind der Garantie und dem Service des Importeurs des jeweiligen Landes unterworfen.

Esta garantía es válida solamente cuando el producto es comprado en E.U. continentales o en Canadá. Todos los productos que sean comprados en el extranjero, están sujetos a las garantías y servicio que cada distribuidor autorizado determine y ofrezca en los diferentes países.

ONE-YEAR LIMITED WARRANTY/REMEDY

PEAVEY ELECTRONICS CORPORATION ("PEAVEY") warrants this product, EXCEPT for covers, footswitches, patchcords, tubes and meters, to be free from defects in material and workmanship for a period of one (1) year from date of purchase, PROVIDED, however that this limited warranty is extended only to the original retail purchaser and is subject to the conditions, exclusions and limitations hereinafter set forth:

PEAVEY 90-DAY LIMITED WARRANTY ON TUBES AND METERS

If this product contains tubes or meters, Peavey warrants the tubes or meters contained in the product to be free from defects in material and workmanship for a period of ninety (90) days from date of purchase; PROVIDED, however, that this limited warranty is extended only to the original retail purchaser and is also subject to the conditions, exclusions and limitations hereinafter set forth.

CONDITIONS, EXCLUSIONS AND LIMITATIONS OF LIMITED WARRANTIES

These limited warranties shall be void and of no effect if:

- a. The first purchase of the product is for the purpose of resale; or
- b. The original retail purchase is not made from an AUTHORIZED PEAVEY DEALER; or
- c. The product has been damaged by accident or unreasonable use, neglect, improper service or maintenance, or other causes not arising out of defects in material or workmanship; or
- d. The serial number affixed to the product is altered, defaced or removed.

In the event of a defect in material and/or workmanship covered by this limited warranty, Peavey will:

- a. In the case of tubes or meters, replace the defective component without charge;
 - b. In other covered cases (i.e., cases involving anything other than covers, footswitches, patchcords, tubes or meters), repair the defect in material or workmanship or replace the product, at Peavey's option;
- and provided, however, that, in any case, all costs of shipping, if necessary, are paid by you, the purchaser.

THE WARRANTY REGISTRATION CARD SHOULD BE ACCURATELY COMPLETED AND MAILED TO AND RECEIVED BY PEAVEY WITHIN FOURTEEN (14) DAYS FROM THE DATE OF YOUR PURCHASE.

In order to obtain service under these warranties, you must:

- a. Bring the defective item to any AUTHORIZED PEAVEY DEALER or AUTHORIZED PEAVEY SERVICE CENTER and present therewith the ORIGINAL PROOF OF PURCHASE supplied to you by the AUTHORIZED PEAVEY DEALER in connection with your purchase from him of this product.
- If the DEALER or SERVICE CENTER is unable to provide the necessary warranty service you will be directed to the nearest other PEAVEY AUTHORIZED DEALER or AUTHORIZED PEAVEY SERVICE CENTER which can provide such service.

OR

- b. Ship the defective item, prepaid, to:

PEAVEY ELECTRONICS CORPORATION
International Service Center
Highway 80 East
MERIDIAN, MS 39301

including therewith a complete, detailed description of the problem, together with a legible copy of the original PROOF OF PURCHASE and a complete return address. Upon Peavey's receipt of these items:

If the defect is remedial under these limited warranties and the other terms and conditions expressed herein have been complied with, Peavey will provide the necessary warranty service to repair or replace the product and will return it, FREIGHT COLLECT, to you, the purchaser.

Peavey's liability to the purchaser for damages from any cause whatsoever and regardless of the form of action, including negligence, is limited to the actual damages up to the greater of \$500.00 or an amount equal to the purchase price of the product that caused the damage or that is the subject of or is directly related to the cause of action. Such purchase price will be that in effect for the specific product when the cause of action arose. This limitation of liability will not apply to claims for personal injury or damage to real property or tangible personal property allegedly caused by Peavey's negligence. Peavey does not assume liability for personal injury or property damage arising out of or caused by a non-Peavey alteration or attachment, nor does Peavey assume any responsibility for damage to interconnected non-Peavey equipment that may result from the normal functioning and maintenance of the Peavey equipment.

UNDER NO CIRCUMSTANCES WILL PEAVEY BE LIABLE FOR ANY LOST PROFITS, LOST SAVINGS, ANY INCIDENTAL DAMAGES OR ANY CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PRODUCT, EVEN IF PEAVEY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

THESE LIMITED WARRANTIES ARE IN LIEU OF ANY AND ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE; PROVIDED, HOWEVER, THAT IF THE OTHER TERMS AND CONDITIONS NECESSARY TO THE EXISTENCE OF THE EXPRESS, LIMITED WARRANTIES, AS HEREINABOVE STATED, HAVE BEEN COMPLIED WITH, IMPLIED WARRANTIES ARE NOT DISCLAIMED DURING THE APPLICABLE ONE-YEAR OR NINETY-DAY PERIOD FROM DATE OF PURCHASE OF THIS PRODUCT.

SOME STATES DO NOT ALLOW LIMITATION ON HOW LONG AN IMPLIED WARRANTY LASTS, OR THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS OR EXCLUSIONS MAY NOT APPLY TO YOU. THESE LIMITED WARRANTIES GIVE YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER RIGHTS WHICH MAY VARY FROM STATE TO STATE.

THESE LIMITED WARRANTIES ARE THE ONLY EXPRESS WARRANTIES ON THIS PRODUCT, AND NO OTHER STATEMENT, REPRESENTATION, WARRANTY OR AGREEMENT BY ANY PERSON SHALL BE VALID OR BINDING UPON PEAVEY.

In the event of any modification or disclaimer of express or implied warranties, or any limitation of remedies, contained herein conflicts with applicable law, then such modification, disclaimer or limitation, as the case may be, shall be deemed to be modified to the extent necessary to comply with such law.

Your remedies for breach of these warranties are limited to those remedies provided herein and Peavey Electronics Corporation gives this limited warranty only with respect to equipment purchased in the United States of America.

INSTRUCTIONS — WARRANTY REGISTRATION CARD

1. Mail the completed WARRANTY REGISTRATION CARD to:

PEAVEY ELECTRONICS CORPORATION
POST OFFICE BOX 2898
MERIDIAN, MISSISSIPPI 39302-2898

- a. Keep the PROOF OF PURCHASE. In the event warranty service is required during the warranty period, you will need this document. There will be no identification card issued by Peavey Electronics Corporation.
2. IMPORTANCE OF WARRANTY REGISTRATION CARDS AND NOTIFICATION OF CHANGES OF ADDRESS:
 - a. Completion and mailing of WARRANTY REGISTRATION CARDS — Should notification become necessary for any condition that may require correction, the REGISTRATION CARD will help ensure that you are contacted and properly notified.
 - b. Notice of address changes — If you move from the address shown on the WARRANTY REGISTRATION CARD, you should notify Peavey of the change of address so as to facilitate your receipt of any bulletins or other forms of notification which may become necessary in connection with any condition that may require dissemination of information or correction.
3. You may contact Peavey directly by telephoning (601) 483-5365.
4. Please have the Peavey product name and serial number available when communicating with Peavey Customer Service.

Features and specifications subject to change without notice.
