

Model: SC™-2 Guitar

Available Finishes: Transparent Wine Red, Gold, Honeyburst

FEATURES

- 24.75" scale
- 22 Jumbo frets
- 15 degree headstock pitch
- Rock Maple neck with Rosewood fingerboard
- Chrome plated hardware
- 2- Peavey USA Design SC2 series alnico humbucking pickups
- Three- a-side, diecast tuners, keystone buttons, 15-1 Ratio
- 1.69" nut width
- 2 volume and 2 tone controls
- D style neck shape
- 12.5" fretboard radius
- Set neck with "extended tail" construction
- Heavy duty tailpiece and bridge
- Basswood body
- Deeply carved top
- Composite topnut
- Body and neck color matched
- Dual action torsion rod
- Ships with DR Dragonskin coated strings
- Made in Indonesia

SPECIAL FEATURES

Improved upper fret access. Specially design and calibrated SC series Alnico pickups voiced for each position. Sleek, comfortable body design with rear waist cutaway. "Extended Tail Construction" refers to the way the neck is attached to the body. On the SC™-2, the neck pocket is extended all the way to the pickup cavity, vastly increasing the amount of contact area of the neck to the integral center body section of the body. This has the effect of increasing the sustain of the guitar and is a feature not seen on guitars costing many times as much as the SC-2.

SPECIFICATIONS

Neck Material: Hard Maple

Frets: 2.7mm wide, 1mm tall, nickel silver

Neck Type: SC™ series D neck shape, Bolt on.

Bridge: Tune 'o matic, chrome die cast top mount tailpiece

Bridge Pickup: Humbucker with zebra cover

Inlays: Top marker white Dot 6mm, side marker white

dot 2mm

NECK DIMENSIONS

Scale/Length: 24.75" (628mm), 22 frets

a. Width at Nut: 1.69" (43mm)

b. Width at Last Fret: 2.24" (57mm)

c. Thickness at 1st Fret: .846" (21.5mm)

d. Thickness at 12th Fret: .925" (23.5mm)

Radius: 12.59" (320mm)

BRIDGE PICKUP

Peavey® USA Design SC™ series 2 voiced for bridge position

Construction: Humbucking, dual coil

Magnet Type: Alnico

Description: Output and frequency tailored for SC-2 body/neck construction, 12k dc. Fully shielded with chrome cover. 4 conductor shielded hookup cable, fully wax saturated to eliminate unwanted noise and feedback. Adjustable 6 screw polepieces design. Pickup designed for clear high end, increased output and even midrange response. Calibrated Alnico 5 magnet adds warmth and increased output. Frequency tailored coil winding improves high end presence for smooth sustain and extra “bite” for solo and lead work. Volume control w’ rolloff circuit retains high end even at reduced volume levels.

NECK PICKUP

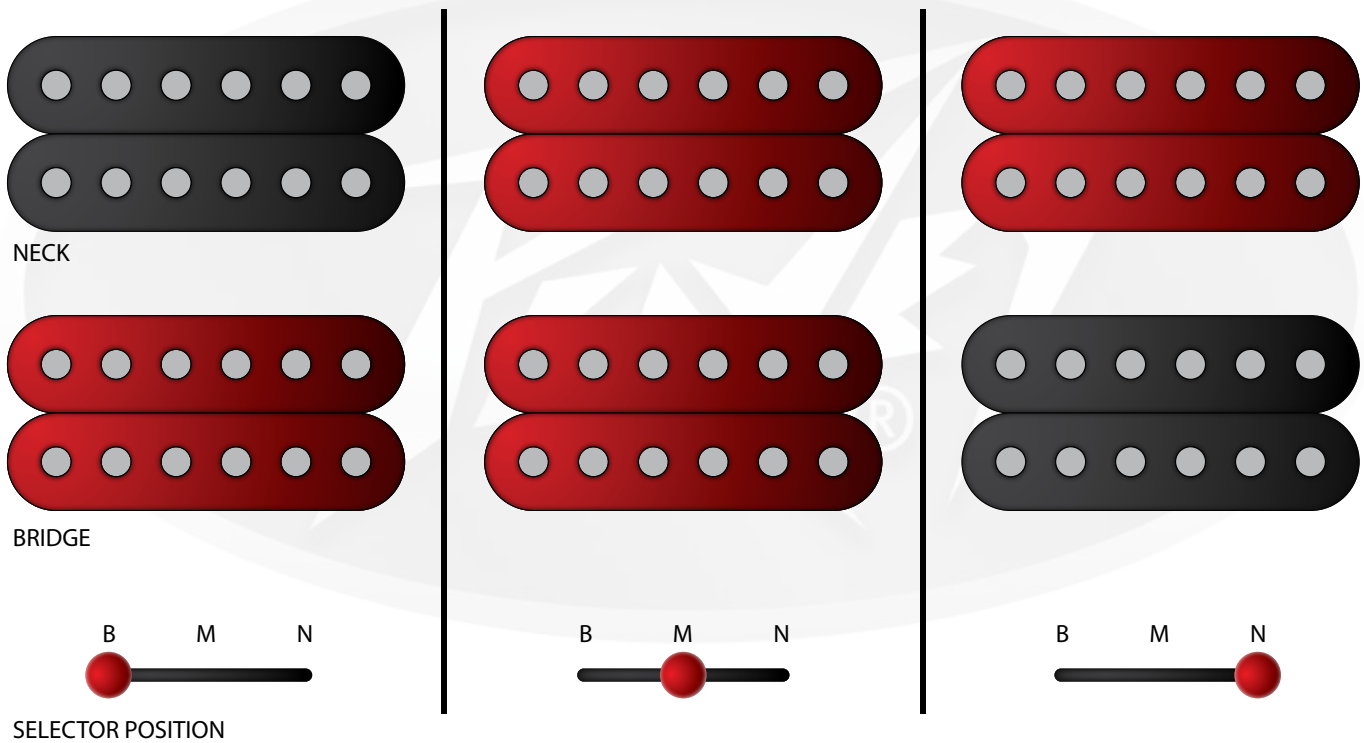

Peavey USA Design SC series 2 voiced for neck position

Construction: Humbucking, dual coil

Magnet Type: Alnico

Description: Output and frequency response tailored for neck position, 7.4k dc. Fully shielded with chrome cover. 4 conductor shielded hookup cable, fully wax saturated to eliminate unwanted noise and feedback. 6 screw adjustable polepieces design. Pickup designed for clear high end, medium output with smooth, warm low end without being muddy. The combination of a calibrated Alnico 2 bar magnet and precise coil winding process makes the SC-2 neck perfect for Jazz, Blues and the vintage “woman tone” made popular in the late 60’s. Even at the highest volume levels, the SC-2 neck pickup will remain articulate, yet warm and smooth. Awesome picking dynamics and full range of response are trademarks of the SC-2 neck pickup. Volume control w’ rolloff circuit retains high end even at reduced volume levels.

SC™-2 PICKUP SWITCHING

IN MIDDLE POSITION, VOLUME CONTROLS ARE INDEPENDANT SO THAT THE PICKUPS CAN BE BLENDED.

AVAILABLE CASES/BAGS

Peavey Part #00444840 Rectangular Guitar Case
Peavey Part #00478950 Molded Electric Guitar Case
Peavey Part #00722780 Nylon Guitar Bag
